

## Indofil Industry Ltd

### About the company:

Indofil Industries Limited is uniquely placed both in Agricultural Chemicals (ABD) as well as Indofil Innovative Solutions (IIS) Business. Indofil has a well-equipped manufacturing infrastructure, a result oriented Research & Development team, and an excellent domestic and international distribution network.

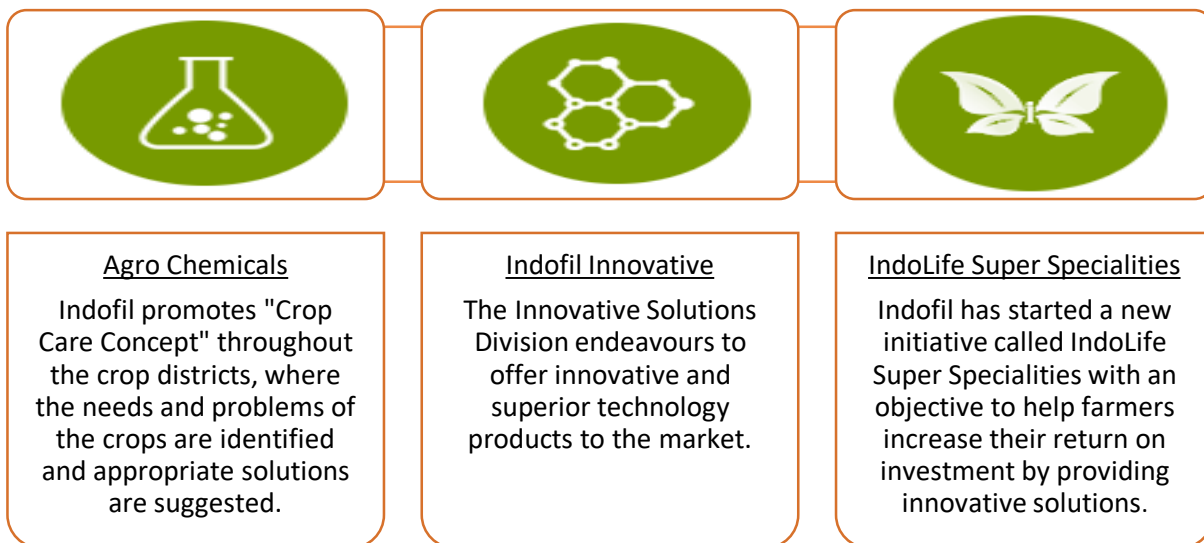

Indofil Innovative Solutions works with the philosophy to be a solution provider by innovative products for various industries viz. Leather, Textile, Paints, Plastics and Construction Chemicals.

### Company Vision:

*"To become a Global Leader in Growth with Customer Success."*

### Business:

### Global Presence:

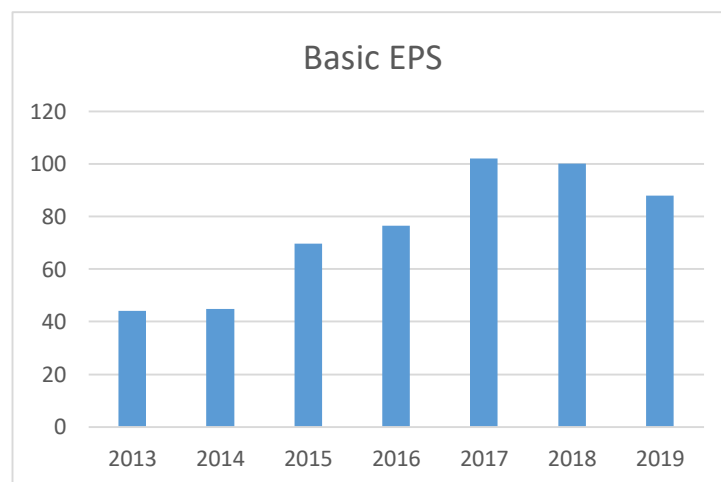

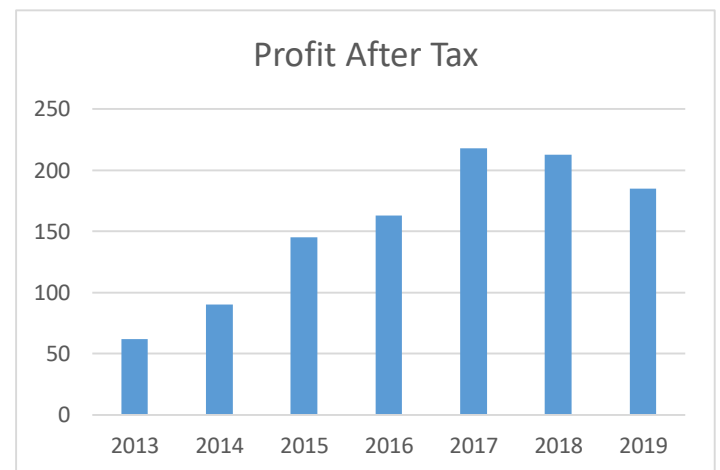

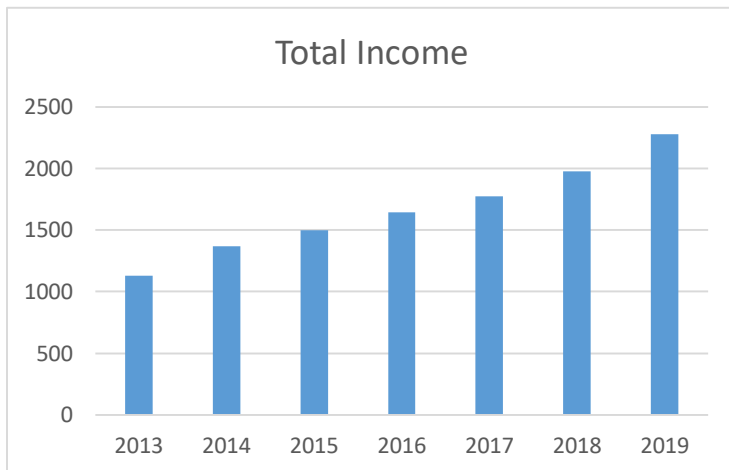

In the last 2-3 years, the Company has extensively invested in its key international markets like Europe, Brazil, and some Asia Pacific markets with an objective to:

- Come closer to some of its key markets and customer.
- Provide better client service to its customers.
- Engaging in Value Added Distribution (VAD) activities by replicating its successful domestic distribution model in these countries.
- Expanding its registration portfolio which requires local presence in these markets.
